

## IMAGINATION MAGNETS

### OBJECTIVES

- Recognize shapes & colors
- Identify geometric shapes\*
- Encourage creativity

\*Indicates STEM and/or Common Core objectives

### GRADES

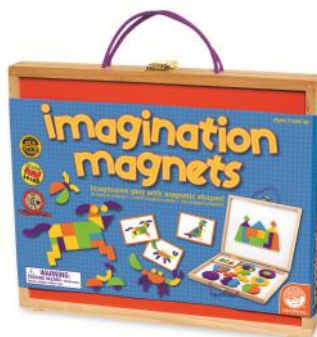

K-2

### ESTIMATED TIME

Flexible

### MATERIALS NEEDED

- [Imagination Magnets](#)

### SETTING THE STAGE

- Draw Shapes and have students identify them.
- Have students identify different colors.

### PROCEDURE

Students work individually or together with Imagination Magnets

Encourage students to follow patterns or use creativity and imagination to make their own images.

Use challenges to encourage more creativity and exploration:

- Build a picture with at least three circles.
- Build a design using green and blue pieces.
  - Use only pieces with curves.
- Include at least two squares in your picture.
  - Copy your neighbor's design.

## IMAGINATION MAGNETS

### FOLLOW UP

Review shapes and colors again.

At home option: students should find 4 different shapes at their house and bring in a list of the objects/shapes that they find.
